Overview

High-Performance Wireless Gaming Mouse

This 2.4GHz wireless optical gaming mouse is engineered for precision and comfort, featuring an ergonomic design suitable for extended gaming sessions. Equipped with a high-precision optical sensor and customizable DPI settings, it ensures accurate tracking and responsive performance for gamers of all levels. The reliable 2.4GHz wireless connection provides a stable gaming experience, while the durable construction ensures long-term usability.

Technical Specifications

DPI Levels

- 800
- 1200
- 1600

Sensor IC Model	MX8650
Number of Buttons	4

Power & Connectivity

Connection Type

2.4GHz Wireless • Optical

Power Source	2 x AA Batteries

Features

Key Features	Ergonomic Design, LED Lighting, High-Precision Optical Sensor, Adjustable DPI
