Product Overview

ITF2 Series Component Feeder

This 24mm component feeder is designed for high-precision automated pick-and-place systems. Engineered for reliability, it ensures consistent component dispensing for complex SMT assembly processes. This unit is part of the ITF2 feeder family, specifically configured for seamless integration with established pick-and-place machinery.

Technical Specifications

Feeder Type	ITF2 24mm
Model Number	PA2654/38
Revision	R4.1
NC Code	4022 591 1173

Compatibility

Available Feeder Sizes

- 8mm
- 12mm
- 16mm
- 24mm
- 32mm
- 44mm
- 56mm

Compatible Series	FCM, FCM2, AX-3, AX-5, D-9, GEM-Xi
