24mm SMT Component Feeder for Yamaha Placement Machines

This 24mm feeder is designed for Yamaha SMT placement machines. It ensures accurate and reliable component feeding for efficient electronic assembly.

Product Overview

Precision SMT Component Feeder

This high-precision SMT component feeder is engineered for seamless integration with automated placement machinery. Designed to ensure accurate and reliable component delivery, it enhances the throughput and overall efficiency of electronic assembly lines. Constructed for durability and consistent performance in demanding high-speed manufacturing environments, this feeder is a vital component for maintaining optimal equipment uptime.

Technical Specifications

Available Tape Widths

- 8mm
- 12mm
- 16mm
- 24mm
- 32mm
- 44mm
- 56mm
- 72mm
- 88mm

Feeder Metrics

24 mm
Standard Tape Width

Supported Feeder Series	CL Series, FV Series, FS2 Series, SS Series

Compatibility List

Model Identification

Feeder Type	Part Number
CL8X2 (0402)	KW1-M1300-00X
CL8X4	KW1-M1100-000
CL8X3 (0201)	KW1-M1500-030
CL24mm	KW1-M4500-015
SS 8mm	KUJ-MC100-000
SS 12mm	KUJ-MC200-000
