

25-30 HP Farm Wheel Tractor

This wheel tractor is designed for agricultural power machinery applications, equipped with a 25HP-30HP engine. It features large rear tires for traction and smaller front tires for maneuverability.

Overview

Compact Agricultural Power

This versatile wheel tractor is engineered for efficient agricultural operations, offering a power range of 25 to 30 horsepower. Designed with a focus on maneuverability and traction, it features a robust build suitable for various field tasks. Its compact footprint makes it an ideal solution for small to medium-sized farm management.
