

2.5-inch SATA III Solid State Drive

This 2.5-inch solid state drive (SSD) uses a SATA III interface. It provides high-speed data access and reliable storage for various computing applications.

Product Overview

High-Performance SATA III SSD

This 2.5-inch Solid State Drive delivers reliable high-speed data access for a variety of professional and personal computing needs. Designed for durability and performance, it is fully compatible with Ultrabooks, Notebooks, and desktop PC systems. With wide operating temperature support and robust shock resistance, this drive is built to handle demanding environments.

Technical Specifications

Available Capacities

- 32GB
- 64GB
- 128GB
- 256GB

Interface	SATA 6.0Gbps, SATA 3.0Gbps
-----------	----------------------------

Flash Standard	MLC
----------------	-----

Physical Dimensions

Size

100.1 mm
Length

69.9 mm
Width

9.3 mm
Height

Environmental and Compatibility

Shock Resistance

Status	Resistance
Operating	2.7G (7-800Hz)
Non-Operating	20G (20-2000Hz)

Supported Operating Systems	Windows, Linux OS
-----------------------------	-------------------

Operating Temperature	-25°C to 85°C
-----------------------	---------------
