

25-Liter Thermoelectric Cooler and Warmer

This thermoelectric cooler and warmer has a 25-liter capacity and is designed for versatile use. It features adjustable temperature settings ranging from 2°C to 20°C, allowing users to customize the internal environment.

Product Overview

Versatile Climate Control

The TK-25T is a high-performance thermoelectric cooler and warmer designed for professional and home environments. With a generous 25-liter capacity, this unit allows users to precisely control internal temperatures between 2°C and 20°C. Its compact design and adjustable settings make it an ideal cooling or heating solution for offices, breakrooms, or personal use.
