

25-Meter Extension Cord Reel with Four Outlets

This 25-meter extension cord reel is equipped with four grounded outlets. It is suitable for providing power distribution in workshops, garages, or construction sites.

Overview

Professional Power Distribution

This 25-meter extension cord reel is engineered for reliable power distribution in demanding environments such as workshops, garages, and construction sites. Featuring four grounded outlets, it allows for the simultaneous connection of multiple tools and devices. The robust reel design incorporates a sturdy frame for stability and an ergonomic handle, ensuring both ease of transport and protection against cable tangling.

Technical Specifications

Cable Length	25 m
Number of Outlets	4
Outlet Compatibility	European Standard, Grounded
Model Identifier	XM-PD25

Design & Build

Key Features

- Sturdy frame for high stability
- Integrated handle for easy transport
- Anti-tangle cable management system
- Durable cable construction
