Overview

High-Efficiency 2.5 Ton Backhoe Loader

This 2.5-ton mini backhoe loader is engineered for high-performance earthmoving and construction tasks. Featuring a robust hydraulic system and optimized structural parts, it delivers superior digging force and rapid operational speeds. Designed for comfort and reliability, this machine offers excellent sound insulation and ergonomic controls to maximize operator productivity in various urban and agricultural environments.

Performance Metrics

Key Performance Metrics

66 kN

Max Breakout Force

2770 mm

Max Discharge Height

40 km/h

Max Travel Speed

Technical Specifications

Dimensions (L x W x H)	7440 x 2350 x 3450 mm
Total Operating Weight	7600 kg
Wheelbase	2180 mm

Configuration

Chassis Type	Integrated
Drive Styles	2WD, 4WD
Digging Device Position	Middle
