

250 Lumen LED Emergency Work Light with Safety Hammer and Magnetic Base

This multi-functional emergency work light features a high-intensity 250 lumen LED strip for bright illumination. It incorporates a safety hammer, a seatbelt cutter, and a magnetic base for hands-free operation.

Product Overview

Versatile Emergency Illumination

This multi-functional emergency work light is engineered for critical situations, combining high-intensity illumination with essential rescue tools. It features a robust design that includes a glass-breaking safety hammer and a seatbelt cutter, making it an indispensable asset for vehicle safety kits. With multiple lighting modes and convenient mounting options, it provides reliable performance when you need it most.
