

2500W Portable Gasoline Generator with Electric Start

This gasoline generator delivers a rated output of 2500 watts at 220V and 50Hz. It offers a peak output of 2800 watts for up to 10 seconds to start larger equipment.

Overview

Portable Power Solution

This 2500W portable gasoline generator is engineered to deliver reliable, efficient power for tools and essential equipment. Featuring both recoil and electric start systems, it offers versatile operation for various professional and field applications. The compact design, complete with an integrated wheel kit, ensures easy transport and storage, while the 15L fuel tank provides extended run times of up to 11 hours at half load.

Performance Metrics

Rated Power Output

2500 W

Rated Power

2800 W

Max Power

Operational Run Time

Load Condition	Duration
Rated Load	7 hrs
1/2 Load	11 hrs

Noise Level

68 dB(A)

Engine Specifications

Engine Model	GX200
Displacement	196 cc
Starting System	Recoil Start, Electric Start

Electrical Output

AC Output	220V / 50Hz
DC Output	12V / 8.3A (100W)

Physical Dimensions

Weight

- Dry Weight: 44kg
- Gross Weight: 46kg

Dimensions (L x W x H)

650 x 465 x 470 mm

Logistics

Container Loading (20'/40')

225 / 450 units
