

2500W Portable Gasoline Generator

This gasoline generator has a rated output of 2500W at 220V and 50Hz. It delivers a peak output of 2800W for 10 seconds to start larger equipment.

Overview

Reliable Portable Power Solution

This 2500W portable gasoline generator is engineered for dependable performance in both residential and commercial settings. Featuring a 196cc gasoline engine, it offers a consistent power supply for essential appliances and tools during outages or in remote locations. The unit is designed for ease of use with a recoil starting system and includes both AC and DC output options for versatile charging and power needs.

Engine & Performance

Engine Model	GX200
Displacement	196 cc
Noise Level	68 dB(A)

Power Output

Key Power Metrics

2800 W Max AC Output	2500 W Rated AC Output	12.7 A Max Current
DC Output	100W 12V 8.3A	

Fuel & Operation

Run Time

- 7 hours at rated load
- 11 hours at 1/2 load

Fuel Tank Capacity	15 L
