

250cc Cruiser Motorcycle

This cruiser-style motorcycle is equipped with a 250cc engine and chrome accents. It features a comfortable seat for both the rider and passenger, complete with a backrest.

Overview

Classic Cruiser Experience

The DD250E-9B is a cruiser-style motorcycle engineered for a blend of classic aesthetics and reliable performance. Featuring a 250cc engine and a low-slung profile, it offers a comfortable riding position for both rider and passenger. With thoughtful additions like a backrest and liquid cooling, this motorcycle is designed for stability and comfort on the road.
