

250cc Red Dual-Sport Motorcycle

This dual-sport motorcycle is designed for both on-road and off-road use. Its 250cc engine provides a balance of power and fuel efficiency, while long-travel suspension and knobby tires make it suitable for challenging terrains.

ADDITIONAL IMAGES

Overview

Versatile Dual-Sport Performance

This 250cc dual-sport motorcycle is engineered for both on-road commuting and off-road exploration, drawing design inspiration from the agility of ancient pterosaurs. It features a robust cradle frame and long-travel suspension to ensure safety and stability across complicated terrains. With its modern LED lighting system and humanized interface, it offers a perfect balance of performance, durability, and contemporary style for adventure enthusiasts.

Design Concept

Inspired by ancient pterosaurs, featuring smooth lines and a concise, flexible appearance.

Chassis & Suspension

Suspension System

- Long-travel suspension for rough surfaces
- Enhanced handling on uneven terrain
- High-mounted exhaust for clearance

Frame Design

Cradle frame designed to improve off-road riding safety.

Lighting & Electronics

Lighting Features

- LED front light
- Fuel tank wing board side lamps
- Automobile-level LED tail lamp
- Indication lamp with cellular reflector

Display Interface

Eye-catching meter interface providing clear traffic and vital parameter information.

Off-Road Capability

Safety & Protection

- Reliable braking system
- Protective handguards
- Sturdy frame construction

Terrain Adaptation
