

250cc Retro Dirt Track Motorcycle

This retro motorcycle is designed for dirt track riding and features a 250cc engine. It combines a classic design with modern components.

Overview

Classic styling features a dedicated front plate and robust handlebar assembly.

Retro Style Meets Modern Performance

This 250cc retro-styled motorcycle offers a unique blend of vintage aesthetics and contemporary engineering, ideal for both urban commuting and dirt track exploration. Built with a robust tubular frame and high-performance components, it provides a stable and responsive riding experience. Features like an integrated digital speedometer, advanced airbag-style rear suspension, and reliable ABS braking make it a versatile choice for modern riders seeking classic style.
