

250L Capacity Cement Mixer

This cement mixer features a 250L drum capacity for efficiently mixing concrete and mortar. It is equipped with a robust steel frame, a powerful motor, and a tilting mechanism for easy material pouring.

Overview

Professional Grade Cement Mixer

This heavy-duty 250L cement mixer is engineered for demanding construction and farm applications. Featuring a robust all-steel construction, it handles mortar, concrete, and stucco with ease. The unit includes a versatile 360-degree rotating drum for precise pouring and large wheels for smooth on-site maneuverability.

Performance

Drum Capacity

250 L

Liters

8.83 cu ft

Cubic Feet

Motor Power

1.375 HP

Drum Rotation Speed

30-36 R.P.M

Electrical

Input Voltage Range

120V, 230V

Operating Frequency

50Hz, 60Hz

Design & Build

Key Features

- 360-degree drum rotation
- All ball bearing motor
- 10-inch wheels for mobility
- Suitable for stucco, mortar, and concrete

Material

All steel
