

250W Single Output Industrial Power Supply

This 250W single output power supply is designed for industrial applications requiring a stable DC power source. It features a selectable AC input switch for either 110V or 220V and provides a 12V DC output at 20.8A.

Overview

Industrial-Grade Power Solution

This 250W single output power supply is engineered for reliability in demanding industrial environments. Featuring a compact and lightweight design, it offers high efficiency and low noise operation suitable for aerospace, military, and home appliance applications. The unit includes adjustable voltage output and built-in protection mechanisms to ensure stable performance.

Electrical Specifications

Output Performance

12 V

Output Voltage

20.8 A

Output Current

Rated Power	250 W
Input Voltage Range	90-130VAC, 180-265VAC
Frequency	50/60Hz

Physical & Safety

Protection Features

- Overload Protection
- Overvoltage Protection

Compliance

CE • RoHS

Dimensions	215 x 115 x 49 mm
