Overview

Compact & Powerful Gasoline Chainsaw

This 25.4cc gasoline-powered chainsaw is engineered for efficiency and precision, making it an ideal choice for pruning, limbing, and light-duty wood cutting tasks. Its compact, ergonomic design ensures excellent maneuverability and reduces user fatigue during extended operation. Built with a robust mechanical plunger pump and a reliable solid-state ignition system, this tool provides a consistent performance balance for both professional and home-use applications.

Engine & Performance

Engine Performance

25.4 cm³

Displacement

0.7 kW

Max Power

12000 r/min

Max Speed

Technical Details

Technical Specifications

Feature	Specification
Fuel Mixture Ratio	40:1
Fuel Tank Capacity	230 ml
Oil Tank Capacity	160 ml
Carburetor Type	Diaphragm
Ignition System	Solid-state
Dry Weight	3.0 kg

Cutting System

Cutting Attachment Details

- Guide Bar: Kangxin AP12-44-509P
- Usable Cutting Length: 260mm
- Saw Chain: Kangxin ALP-50
- Chain Pitch: 3/8 inch
- Chain Gauge: 0.050 inch

Safety & Environment

Safety & Vibration Data

Sound Pressure: 100dB(A), Sound Power: 113dB(A), Vibration: 7.5 m/s², Mechanical Plunger Pump
