Product Overview

Professional 254nm UVC Germicidal Solution

This 254nm UVC germicidal lamp is engineered for highly effective sterilization across air, water, and surface applications. Designed with a standard G13 base, it offers seamless integration into T4, T5, T6, and T8 fixtures for versatile deployment in both domestic and industrial environments. The lamp provides a reliable, high-performance solution for deactivating bacteria and viruses through targeted ultraviolet emission.

Technical Specifications

Available Wattage

- 10
- 15
- 20
- 30
- 40

Voltage Options

- 110V
- 220V

Wavelength	254 nm
Lifespan	5000-8000 hours
Base Type	G13

Compliance and Features

Ozone Configuration

Ozone • Ozone Free

Certifications	CE, RoHS
