Product Overview

Reliable Portable Power

This portable gasoline generator provides a dependable power solution for various outdoor applications. Engineered with an efficient OHV 4-stroke engine, it delivers 2500 watts of continuous power with a peak capacity of 3700 watts. Designed for convenience and safety, the unit features an electronic ignition system, a portable frame with wheels, and comprehensive control panels for monitoring voltage and managing power output.

AC Output	230V
DC Output	12V with Reset

Safety & Features

Operational Safety

This generator is designed for outdoor use only. Never operate the unit indoors, in garages, or near vents, as exhaust contains carbon monoxide which can be fatal. Always read the operator's manual before use and ensure the battery is charged to at least 12.5V before attempting to start the unit if it has been stored for more than 6 months.
