

25L Compact Display Refrigerator

This display refrigerator is suitable for showcasing wine, drinks, and food. Its compact design and glass door make it ideal for small businesses, offices, or home use.

Product Overview

Compact Display Solution

The SC25L is a compact 25-liter display refrigerator specifically designed for showcasing beverages and snacks. It features a clear glass door for high visibility and an internal LED light to ensure products are presented attractively. With its efficient compressor-based cooling system and adjustable storage, it is an ideal solution for small retail spaces, offices, or professional environments requiring reliable, space-saving refrigeration.
