

2.5L Stainless Steel Electric Kettle with Keep-Warm Function

This electric kettle has a 2.5L capacity and features intelligent temperature control to maintain a consistent temperature of approximately 65°C. Constructed from food-grade 304 stainless steel, it is available in seamless or seamed designs and may include a keep-warm function.

Product Overview

High-Capacity Stainless Steel Kettle

This 2.5L electric kettle is engineered for efficiency and durability, constructed from high-quality food-grade 304 stainless steel. It features an intelligent temperature control system designed to maintain a steady temperature of approximately 65°C, making it ideal for consistent hot water availability. With integrated safety features like boil-dry protection and automatic shut-off, this appliance combines convenience with reliable operation for professional or high-use environments.

Technical Specifications

Capacity	2.5 L
Material	Food-grade 304 Stainless Steel
Keep-Warm Temperature	65 °C

Features

Indicator Lights

1 Red Light

Heating Mode

1 Blue Light

Keep-Warm Mode

Safety Features

Boil-dry protection, Automatic shut-off

Configuration Options

Available Designs

- Seamless design
- Seamed design

Functionality Variants

- With keep-warm function
- Without keep-warm function
