

26-inch Alloy Frame Mountain Bike with 24-Speed Shimano Drivetrain

This mountain bicycle features a 26-inch alloy frame for durability. It is equipped with a Shimano 24-speed derailleur, alloy double-wall rims, and disc brakes.

Overview

High-Performance Mountain Bike

This 26-inch mountain bike is engineered for versatility and durability on diverse terrains. Featuring a lightweight alloy frame and a reliable 24-speed drivetrain, it offers smooth gear transitions and efficient power transfer for both climbing and descending. Designed with robust components like double-wall alloy rims and high-traction tires, this bike provides a stable and responsive riding experience for recreational and off-road enthusiasts.
