Overview

Versatile Electric Mobility

This 26-inch electric folding bicycle combines the durability of an aluminum alloy frame with the convenience of a compact, foldable design. Engineered for both urban commuting and recreational mountain biking, it features a robust 250W motor and a reliable 48V power system. With 21 speeds and responsive disc brakes, it offers a smooth, controlled riding experience across various terrains.

Technical Specifications

Motor Power	250 W
System Voltage	48 V
Battery Capacity	10.4 AH
Gear System	21

Design & Build

Wheel Size	26 inch
Frame Material	Aluminum Alloy
Foldable Design	Yes

Safety & Performance

Braking System	Disc Brake
