

26-inch Aluminum Alloy Mountain Bike

This 26-inch mountain bike has a high-strength aluminum alloy frame and a Taiwan Nobutaka CH-386 self-locking aluminum shock absorber front fork. The SHIMANO ST-EF51 transmission system provides smooth gear changes and reliable braking.

Overview

Versatile Mountain Performance

This 26-inch mountain bike is engineered for riders seeking a balance of durability and performance. Built with a lightweight yet sturdy aluminum alloy frame, it provides the necessary strength for off-road trails while remaining agile for city commuting. Equipped with responsive suspension and reliable gearing, this bicycle ensures a smooth and controlled experience across diverse terrains.
