

26-Inch Fat Tire Electric Bicycle

This electric bicycle features 26-inch fat tires for enhanced traction and stability. It is equipped with a lithium-ion battery, providing a reliable power source for extended rides and assisted pedaling.

Overview

High-Performance Fat Tire Electric Bicycle

This 26-inch fat tire electric bicycle is engineered for versatility, offering excellent traction and stability across diverse terrains. Equipped with a powerful 48V brushless motor and a long-lasting Samsung lithium-ion battery, it provides reliable assistance for both commuting and recreational riding. The robust aluminum alloy frame, combined with a responsive disc brake system and Shimano gearing, ensures a safe, comfortable, and efficient riding experience.

Technical Specifications
