

26-Inch Industrial High-Velocity Fan

This 26-inch industrial fan provides robust air circulation for demanding environments. It features a high-velocity motor, durable construction, and adjustable height for optimal positioning.

Product Overview

Industrial High-Velocity Performance

This 26-inch industrial power fan is engineered for robust air circulation in demanding professional environments. Featuring a high-velocity motor and durable construction, it provides powerful, consistent airflow ideal for cooling large spaces like warehouses, factories, and workshops. The unit is built for long-lasting performance with a sturdy, adjustable stand for optimal positioning.

Technical Specifications

Available Sizes

- 650mm
- 750mm

Color Options

Black • Chrome

Model Code

FQL-26E

Construction Materials

Iron, Aluminium

Logistics & Origin

Place of Origin

Guangdong, China

Place of Shipment

Guangdong, China
