

26-Inch Industrial Power Fan

This 26-inch industrial power fan is designed for heavy-duty air circulation. It features a high-velocity motor, durable metal frame and blades, adjustable tilt head, sturdy base, and safety grill.

Product Overview

Industrial-Grade Air Circulation

This 26-inch industrial power fan is engineered for heavy-duty air circulation in demanding commercial and industrial environments. Featuring a high-velocity motor, durable metal construction, and an adjustable tilt head, it provides reliable and powerful ventilation for warehouses, factories, and workshops. The sturdy base and safety grill ensure both stability and operational safety in busy workspaces.
