

26-Inch Wall-Mounted Misting Fan

This wall-mounted mist fan features a centrifugal secondary atomized design. The 26-inch fan provides efficient air circulation and adds moisture to the air for enhanced cooling.

Product Overview

Industrial Misting Solution

This 26-inch wall-mounted misting fan is engineered for effective cooling in both indoor and outdoor environments. It features a unique auto-fill design that connects directly to a water source for seamless, continuous operation. With its robust motor and efficient misting system, it provides powerful air circulation and enhanced cooling comfort for professional settings.

Technical Performance

Operational Metrics

1400 rpm

Rotation Speed

210 m3/min

Air Flow

300 W

Power Consumption

Electrical Requirements

Voltage (V)

220

Frequency (Hz)

50

General Specifications

Model Number	AA060019A
Blade Size	26 inches
Installation	Wall-Mounted
