

## 26-Piece Feeler Gauge Set

This 26-piece feeler gauge set is designed for measuring narrow gaps and clearances in mechanical components. It includes blades of varying thicknesses, ranging from 0.04mm to 0.63mm, allowing for accurate measurements in a wide range of applications.

### Product Overview

#### Precision Measurement Tool

This 26-piece feeler gauge set is engineered for high-precision inspection, allowing for accurate gap and clearance measurements in mechanical components. Constructed from durable carbon steel, these gauges are essential for automotive, engineering, and maintenance tasks requiring exact adjustments. The set includes a versatile range of blade thicknesses, clearly marked for quick identification and efficient workflow.

## Technical Specifications

### Blade Thickness Reference

Metric (mm)	Imperial (in)
0.04	0.0015
0.05	0.002
0.06	0.0025
0.10	0.004
0.13	0.005
0.15	0.006
0.18	0.007
0.20	0.008
0.23	0.009
0.25	0.010
0.28	0.011
0.30	0.012
0.33	0.013
0.35	0.014
0.38	0.015
0.40	0.016
0.45	0.018
0.48	0.019
0.50	0.020
0.55	0.022
0.58	0.023
0.60	0.024
0.63	0.025

Number of Blades	26
Thickness Range (Imperial)	0.0015 - 0.025 inch
Thickness Range (Metric)	0.04 - 0.63 mm
Material	Carbon Steel

## Packaging & Storage

Packaging Options	PVC bag, Paper card
-------------------	---------------------
