

26L Multifunctional Mist Duster Sprayer Blower with 12m Range

This multifunctional tool serves as a sprayer, mist duster, and blower. It has a 26L container and a 12m spray range.

Product Overview

Professional Agricultural Mist Duster

This multifunctional mist duster is designed for efficient crop cultivation, making it an ideal solution for maintaining fruit and vegetable crops. It serves as a versatile tool capable of handling both liquid misting and the application of granulates and seeds. With a substantial 26-liter container capacity and a powerful engine, it is built to support high-productivity agricultural tasks.
