Product Overview

Professional Performance

The 26mm Rotary Hammer is a versatile tool engineered for demanding drilling and chiseling applications in concrete, brick, and stone. Featuring a robust motor and multiple operating modes, it provides the flexibility required for construction, renovation, and demolition tasks. The design prioritizes user comfort with vibration reduction systems and precise control features like an integrated depth gauge.

Technical Specifications

Input Power

1050 W

Input Power

No-Load Speed

900 rpm

No-Load Speed

Impact Rating

4000 bpm

Impact Rating

Voltage Compatibility

110-120V, 220-240V, 50/60Hz

Features

Operating Modes

- Rotary Hammer
- Hammer Only
- Rotation Only

Safety & Ergonomics

- Vibration reduction system
- Safety clutch
- Depth gauge for precision
- Durable chuck system

Certifications

Compliance

CE • GS • Intertek
