

26x1.1/2 City Bicycle Tyre

This tyre is designed for city bikes and provides reliable performance. It is constructed from durable rubber for long-lasting use.

Product Overview

High-performance construction suitable for various riding conditions.

Heavy-Duty City Bicycle Tyre

This high-performance pneumatic rubber bicycle tyre is specifically designed for city bikes required to carry heavy loads. It features a robust construction for enhanced puncture resistance and a tread pattern engineered for superior handling on various urban terrains. The durable rubber compound ensures long-lasting use and resistance to wear and tear, providing a smooth and comfortable ride with low rolling resistance.

Technical Specifications

Size

26 inch

Diameter

1.5 inch

Width

Item Number	DBB2102
Color	Black
Primary Use	City bikes for heavy load transport

Supply & Logistics

Minimum Order Quantity	1000 Pcs
Supply Ability	50000 Pcs/Month
Port of Loading	Guangzhou, China
Payment Terms	L/C, T/T

Features

Robust tread pattern designed for enhanced grip and control on city surfaces.

Key Features

- High-quality pneumatic rubber
- Enhanced puncture resistance
- Low rolling resistance
- Designed for heavy load carrying
- Durable wear-resistant compound
