

2.7-2.8 Ton Wheel Loader

This wheel loader is designed for moving materials on construction sites and in industrial environments. Its hydraulic system ensures smooth operation for loading and unloading tasks.

ADDITIONAL IMAGES

Overview

High-Performance Material Handling

This 2.7-2.8 ton wheel loader is engineered for demanding construction and industrial environments, combining robust structural integrity with high operational efficiency. It features an ergonomic, vibration-dampened cabin designed to minimize operator fatigue during extended shifts, while providing panoramic visibility for enhanced safety. With advanced hydraulic controls and a versatile quick-hitch system, this machine is built to handle a wide range of tasks with precision and reliability.

Performance & Capacity

Rated Load Capacity

2.8 ton

Maximum Load

Compatible Engine Types

Diesel

Operator Comfort & Safety

Cabin Features

- Vibration-absorbing seat
- Panoramic floor-to-ceiling tinted glass
- Easy-access door steps
- Rear-view safety camera with color display

Operational Efficiency

Control System	Ergonomic pilot joystick for sensitive and accurate maneuvering
Attachment System	Yes
Quick Hitch Capability	Allows for attachment changes in seconds without leaving the cab

Construction & Design

Frame Design	Reinforced structure designed to handle heavy vertical and horizontal loads
