

27.5" Electric Mountain Bike with Integrated Battery

This 27.5-inch electric mountain bike is equipped with an alloy frame and an integrated battery within the down tube. It features a Shimano 8-speed gear system and mechanical disc brakes.

Product Overview

Performance Electric Mountain Bike

This 27.5-inch electric mountain bike is engineered for versatility, seamlessly bridging the gap between rugged off-road exploration and efficient urban commuting. It features a durable aluminum frame paired with a responsive suspension fork to handle varied terrain with ease. With an integrated 36V electric motor and reliable disc braking system, this bike offers a balanced, powerful, and comfortable riding experience for professional and recreational use.
