

27W LED Work Light for Vehicle and Equipment Illumination

This 27W LED work light provides bright and efficient illumination for various applications. Its robust construction ensures reliable performance in demanding environments.

ADDITIONAL IMAGES

Overview

The square 27W LED work light features a robust housing and integrated heat sink for optimal thermal management.

High-Performance 27W LED Work Light

This 27W LED work light is engineered for high-intensity illumination across various vehicle and equipment types. Featuring over 90% power efficiency and a lifespan exceeding 30,000 hours, it provides a reliable, soft light source for demanding environments. Its rugged aluminum alloy construction and IP67 waterproof rating ensure peak performance even in heavy rain or high-shock conditions.

Performance Metrics

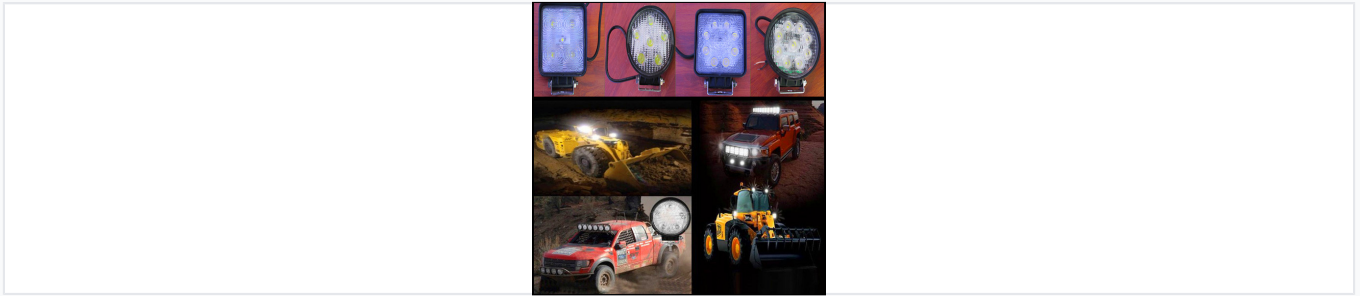

Key Performance Indicators

27 W Power Output	90 % Power Efficiency	30000 hrs Service Life
-----------------------------	---------------------------------	----------------------------------

Technical Specifications

Ingress Protection IP67 Waterproof	
Lens Material	PMMA organic glass
Housing Material	Aluminum alloy
Key Features	Shockproof, Waterproof, High Intensity, Soft Light, Energy Efficient

Applications

Designed for heavy-duty applications, providing a bright, focused beam for enhanced visibility.

Recommended Applications

- Off-road vehicles
- Construction equipment
- Agricultural machinery
- Mining operations
- Industrial machinery

Compliance & Quality

Certifications	CE, RoHS, REACH
Quality Assurance	100% testing before packing

Commercial Terms

Warranty	1 year
Sample Lead Time	7 days
