

28-Piece Drill and Bit Set for Drilling and Fastening

This 28-piece drill and bit set is designed for various drilling and fastening tasks. It features HSS drill bits with a titanium nitride coating and Cr-V screwdriver bits, housed in a durable plastic case.

Product Overview

Professional Versatility

This comprehensive 28-piece drill and bit set is engineered for a wide array of drilling and fastening tasks. Featuring high-speed steel drill bits with titanium coating for extended durability and chrome-vanadium screwdriver bits for superior strength, this kit is built to handle demanding professional applications. The set includes a convenient quick-changer and is organized in a durable case for easy portability and tool management.
