Overview

Portable Power Solution

This 2800W portable gasoline generator is engineered for reliable performance in both residential and commercial settings. Equipped with a 6.5HP 4-stroke OHV engine, it provides consistent power output while maintaining portability through its robust frame and wheel design. Safety features like automatic voltage regulation (AVR), oil alert systems, and overload protection ensure stable operation for your tools and appliances.

Performance

Power Output

2800 W
Running Watts

6.5 HP
Engine Power

Engine Specifications

4-stroke, OHV (overhead valve), single cylinder, air-cooled

Safety & Compliance

Safety Systems

- Automatic Voltage Regulation (AVR)
- Over-voltage protection
- Overload protection
- Overheat protection
- Low oil alert system

Certifications

CE, EURO V, EPA, ISO 9001:2015

Technical Details

Configuration Options

- Recoil start or electric start
- Single phase or three phase
- Integrated wheels and handles

Warranty

2 years or 600 continuous working hours

Quality Control

Yes
