

2.8kW Portable Gasoline Generator

This portable gasoline generator has a 220V rated voltage and 2.8kW rated frequency. It delivers a maximum output of 3.1kW and includes an oil alert lamp, voltmeter, and engine switch.

Overview

Reliable Portable Power Solution

The YH2500GX-II is a robust portable gasoline generator designed to provide dependable power for various professional and commercial applications. Engineered for efficiency, it delivers a consistent rated output of 2.8kW with a maximum capacity of 3.1kW, making it suitable for demanding work environments. This unit includes essential monitoring features like an oil alert system and a built-in voltmeter to ensure safe and optimal operation.
