Product Overview

High-Efficiency LED Lighting Solutions

This range of high-power LED bulbs is engineered for superior energy efficiency and long-lasting performance in both residential and commercial settings. Available in a wide variety of wattages from 5W to 60W, these bulbs are designed to replace traditional lighting with robust, heat-dissipating construction. With a versatile voltage range of 85V-265V and multiple color temperature options, they provide flexible illumination for diverse professional applications.

Performance Metrics

Available Wattages

- 5W
- 9W
- 13W
- 18W
- 28W
- 38W
- 48W
- 60W

Operating Voltage

85V - 265V

Color Temperatures

6500K, 8000K, 10000K
