

2kW Digital Inverter Generator

This 2kW digital inverter generator is a portable power solution with a rated output of 1.6kW and a maximum output of 2.0kW. It delivers a rated voltage of 230V with a DC output of 12V, suitable for charging batteries.

Product Overview

Compact and Efficient Power Solution

This 2kW digital inverter generator is engineered for portability and reliable power delivery, making it an ideal choice for camping, outdoor events, and emergency backup scenarios. Utilizing advanced converter technology, it produces clean, stable power suitable for sensitive electronic devices. Its lightweight design, quiet operation, and fuel-efficient performance ensure a seamless experience for professional and recreational users alike.

Performance Metrics

Key Output Metrics

1.6 KVA

Rated Power Output

1.8 KVA

Max Power Output

54 dB

Noise Level

4 hr

Continuous Run Time

Technical Specifications

Engine Details

Attribute	Value
Engine Type	4-stroke, single-cylinder, OHV
Cooling System	Forced air-cooled
Displacement	79.7 ml
Ignition System	Non-contact transistorized magneto (TCI)
Starting System	Manual

Fuel & Oil Capacity

- Fuel Tank Capacity: 3.5 L
- Fuel Consumption: 0.6 L/hr
- Oil Capacity: 0.5 L

Electrical Output

Output Specifications

- Rated Voltage: 220 V
- Rated Frequency: 50 Hz
- DC Output: 12V / 8.3A

Physical Attributes

Physical Dimensions

- Net Weight: 22 kg
- Carton Dimensions: 518 x 310 x 500 mm
