Overview

Reliable Portable Power

This 2kW open frame gasoline generator is a versatile power solution designed for construction sites, emergency backup, and recreational use. Featuring a robust 4-stroke, air-cooled engine, it delivers consistent performance with both manual and electric start options. The unit includes comprehensive AC and DC output options to support a wide range of electrical devices and tools.

Electrical Output

Rated Output

2 kW Rated Output	2.2 kW Max Output
-----------------------------	-----------------------------

Voltage Configurations	220V/380V, 110V/220V
AC Frequency	50Hz/60Hz
DC Output	12V / 8.3A

Engine Specifications

Engine Details

Feature	Specification
Displacement	163cc
Horsepower	5.5 HP
Cooling System	Air-cooled
Stroke	4-stroke

Starting System

Manual Start • Electric Start

Capacity & Maintenance

Fuel Tank Capacity	15 L
Oil Capacity	0.6 L
