

2kW Portable Gasoline Inverter Generator

This 2kW gasoline inverter generator provides a portable power solution for various applications. It features a gasoline engine and inverter for clean, stable AC power, multiple outlets, and safety features.

Overview

Portable Power Solution

The 2kW Gasoline Inverter Generator is a reliable and portable power source engineered to deliver clean, stable AC electricity. Utilizing advanced inverter technology, it is perfectly suited for sensitive electronics, camping trips, construction sites, and emergency backup scenarios. Its compact design, integrated carrying handle, and comprehensive safety features like low oil shutdown make it a versatile choice for professional and recreational use.

Technical Specifications

Rated Power

2 kW
Rated Output

AC Voltage Output

230V

Power Technology

Inverter

Features & Safety

Control Panel Indicators

- Fuel Switch
- Low Oil Alarm
- Overload Alarm
- Output Indicator

Safety Systems

Low Oil Shutdown, Overload Protection

Design & Utility

Portability

Compact Size • Carrying Handle

Recommended Use Cases

- Camping
- Construction Sites
- Emergency Backup Power
- Sensitive Electronics
