

2V 300Ah Gel Battery for Solar/Wind Energy Storage

This 2V 300Ah gel battery is designed for solar and wind energy systems. It provides reliable and efficient energy storage, ensuring consistent performance in renewable energy applications.

Product Overview

Reliable Gel Energy Storage

This 2V 300Ah gel battery is specifically engineered for renewable energy applications, including solar and wind power storage systems. Its robust design and gel electrolyte technology ensure long-lasting performance, minimal maintenance, and efficient energy delivery. Designed for professional use, it provides a dependable solution for grid-independent energy needs.

Technical Specifications

Nominal Voltage	2 V
Nominal Capacity	300 Ah
Capacity Rate	10hr

Physical Dimensions

Dimensions	170 x 150 x 340 mm
Weight	19 kg

Commercial Details

Minimum Order Quantity	24
Production Time	8-10 days

Safety & Usage

Safety Instructions

- Read instructions before use
- Avoid short-circuiting battery terminals
- Avoid charging under airless conditions
- Avoid resolving or remoulding the battery
- Performance affected by temperatures outside 25°C

Certifications

Compliance

CE
