

2x2 LED Standard Panel Light

This LED panel light meets the latest 2020 UL 8750 standard and has UL approval. It features 0-10V isolated dimming and is compatible with emergency backup drivers.

Overview

High-Efficiency Ambient Lighting

The 2x2 LED Standard Panel Light is designed to deliver uniform, high-quality ambient illumination for a variety of indoor environments including offices, schools, and hospitals. This luminaire offers significant energy savings of up to 70% compared to traditional fluorescent troffers, making it an ideal choice for energy-conscious retrofits or new construction projects. With a lifespan exceeding 50,000 hours, it provides a reliable, low-maintenance lighting solution that integrates seamlessly into grid ceilings.
