

2x4 CCT and Wattage Switchable LED Panel Light

This 2x4 LED panel light allows users to adjust both the color temperature and wattage. It is compliant with UL 8750 and DLC 5.1 standards.

Product Overview

Versatile Commercial Lighting

This 2x4 LED panel light is engineered to provide uniform, high-efficacy ambient lighting for diverse indoor environments such as offices, schools, hospitals, and retail spaces. Featuring CCT and wattage switchability, it offers customizable illumination to meet specific project requirements while delivering significant energy savings of up to 70%. Designed for longevity, this luminaire ensures reliable performance with a lifespan exceeding 50,000 hours.

Technical Specifications

Rated Lifespan	50000 hrs
Input Voltage	100-277 AC
Frequency	50-60Hz
Dimming Capability	0-10VDC
Operating Temperature	-20 to 40

Installation & Features

Mounting Options

- Recessed grid ceiling
- Suspended (hanging brackets)
- Surface mount (requires optional kit)

Key Features

CCT Switchable • Wattage Switchable • Energy Efficient • Uniform Illumination
