

3-in-1 Kitchen Appliance Set

This versatile appliance combines a blender, coffee maker, and juicer in one. It's designed to save space and offer multiple functionalities.

Overview

Versatile Mixing Solution

This portable mixer is engineered for efficiency in small to medium-sized construction projects. Featuring a robust steel drum and specialized internal mixing blades, it delivers consistent results for cement, mortar, and various building materials. Its compact, wheelbarrow-style design ensures high maneuverability and ease of transport for both professional contractors and DIY enthusiasts.

Technical Specifications

Application Suitability

- Small construction projects
- Medium-sized construction projects
- Cement mixing
- Mortar mixing
