Product Overview

Versatile 3-in-1 Solar Lighting Solution

This innovative solar lighting system provides a multi-functional design that serves as an exterior wall light, table lamp, and portable emergency light. Engineered with advanced adaptive lighting technology and intelligent battery protection, it ensures reliable performance even during prolonged rainy periods. Its portable, waterproof construction makes it an ideal choice for residential courtyards, camping, and emergency backup lighting.

Technical Specifications

Technical diagram demonstrating multi-scene versatility and core technology features.

Waterproof Rating

IP65

Luminous Efficiency

190 lm/W

Rainy Day Endurance

7 days

Number of Lighting Modes

3

Features & Technologies

Advanced Technologies	ALS Adaptive Lighting, TCS Battery Protection, PIR Motion Sensor, Removable Solar Panel
International Certifications	CE, ROHS, FCC, ISO, SGS, TUV, BV

Usage Scenarios

Recommended Applications

- Courtyard illumination
- Mobile emergency light
- Table reading
- Night markets
- Outdoor work
- Traveling
