Overview

High-Performance 3-in-1 Cleaning Solution

This advanced 3-in-1 high-pressure washer provides the versatility of steam, hot water, and cold water cleaning in a single mobile unit. Engineered for heavy-duty commercial and industrial environments, it effectively removes stubborn oil, grease, and grime while supporting disinfection tasks in public spaces. The machine is designed for continuous reliability, offering an 8-hour operational runtime and enhanced visibility for nighttime maintenance tasks.

Performance

Continuous Operation

8 hours

Continuous Runtime

Operating Modes

Steam, Hot Water, Cold Water

Design & Utility

Mobility and Handling

- 4-inch or 10-inch fixed steering tires for rough terrain
- Adjustable high-pressure pipe and gun length
- Optional water tower support for waterless areas
- Integrated lighting for night-time operation
