

3-Layer Daily Protective Face Mask

This 3-layer face mask is designed for daily protection against air pollution. It complies with standard GB32610-2016.

Product Overview

Daily Protective Face Mask

This 3-layer protective face mask is designed for effective daily use, providing a reliable barrier against airborne particles and droplets. Constructed with a combination of non-woven and meltblown fabrics, it balances filtration efficiency with breathability. The mask features a flat ear-hook design and an integrated nose clip to ensure a secure and comfortable fit for various face shapes.

Technical Specifications

BFE Rating

95 %

Bacterial Filtration Efficiency

Dimensions

17.5cm x 9.5cm

Composition Materials

Non-woven fabric, Meltblown fabric

Design & Features

Key Features

- 3-layer construction
- Flat ear-hook design
- Adjustable nose clip

Storage & Handling

Usage Type

Disposable • Single-use

Storage Requirements

Store in a non-corrosive gas, cool, dry, well-ventilated clean environment.
