

3-Layer Disposable Medical Face Mask

This 3-layer face mask is designed for use by medical staff. It complies with standard GB32610-2016.

Product Overview

Medical-Grade Protection

This 3-layer disposable face mask is designed to provide a reliable physical barrier against particulate matter and body fluids. Engineered for medical environments, the construction utilizes a combination of spun bond and melt-blown nonwoven fabrics to ensure effective filtration while maintaining comfort. The design includes an adjustable aluminum nose piece and secure elastic ear loops for a reliable fit during single-use applications.
